

## Section 1 - Identification of Product and Company

Amma's  
3-6/8 Hogan Court  
Pakenham  
Vic 3810

[www.ammass.au](http://www.ammass.au)

[Customerservice@ammass.au](mailto:Customerservice@ammass.au)

**Substance:** LAUNDRY LIQUID  
**Trade Name:** Ammas Laundry Liquid,  
**Product Use:** Domestic & Commercial Laundry Liquid  
**Creation Date:** August, 2025  
**This version issued:** and is valid for 5 years from this date.

## Section 2 - Hazards Identification

### Statement of Hazardous Nature

This product is classified as: Not classified as hazardous according to the criteria of SWA.

Not a Dangerous Good according to the Australian Dangerous Goods (ADG) Code.

**Safety Phrases:** S36, S24/25. Wear suitable protective clothing. Avoid contact with skin and eyes.

**SERIOUS EYE DAMAGE/EYE IRRITATION:** Category 2A.

#### Precautionary Statements:

**Prevention:** Wash skin thoroughly after handling. Wear eye protection/face protection.

**Response:** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/ attention.

## Emergency Overview

**Physical Description & Colour:** Clear Colour liquid.

**Odour:** Fragrance.

**Major Health Hazards:** No significant risk factors have been found for this product, however repeated exposure may cause skin dryness or cracking.

## Potential Health Effects

### Inhalation:

**Short Term Exposure:** Available data indicates that this product is not harmful. In addition product is unlikely to cause any discomfort or irritation.

**Long Term Exposure:** No data for health effects associated with long term inhalation.

### Skin Contact:

**Short Term Exposure:** Available data indicates that this product is not harmful. It should present no hazards in normal use. However, product may be mildly irritating, but is unlikely to cause anything more than mild discomfort which should disappear once contact ceases.

**Long Term Exposure:** No data for health effects associated with long term skin exposure.

### Eye Contact:

**Short Term Exposure:** This product is believed to be mildly irritating, to eyes, but is unlikely to cause anything more than mild transient discomfort.

**Long Term Exposure:** No data for health effects associated with long term eye exposure.

### Ingestion:

**Short Term Exposure:** Significant oral exposure is considered to be unlikely. However, this product is believed to be mildly irritating to mucous membranes but is unlikely to cause anything more than mild transient discomfort.

**Long Term Exposure:** No data for health effects associated with long term ingestion.

### Carcinogen Status:

**SWA:** No significant ingredient is classified as carcinogenic by SWA.

**NTP:** No significant ingredient is classified as carcinogenic by NTP.

**IARC:** No significant ingredient is classified as carcinogenic by IARC.

---

### Section 3 - Composition/Information on Ingredients

---

The ratio of components may vary slightly from batch to batch. Minor quantities of other nonhazardous ingredients are also possible.

| Ingredient            | CAS No.     | % (w/w) |
|-----------------------|-------------|---------|
| Purified Water        | 7732-18-5   | 50–70%  |
| Anionic Surfactants   | Proprietary | 10–25%  |
| Non-Ionic Surfactants | Proprietary | 5–15%   |
| Sodium Carbonate      | 497-19-8    | 1–5%    |
| Enzymes               | Proprietary | <1%     |
| Optical Brighteners   | Proprietary | <0.5%   |
| Preservative          | Proprietary | <1%     |
| Fragrance             | Proprietary | <1%     |

---

### Section 4 - First Aid Measures

---

**Ingestion:** Rinse mouth with water. Do not induce vomiting. Give plenty of water to drink. If irritation persists, seek medical advice or contact the Poisons Information Centre.

**Eye:** Immediately hold eyes and flush with water for at least 20 minutes. If irritation persists, seek medical advice.

**Skin:** Wipe off excess. Remove contaminated clothing. Wash well with water. If irritation occurs, seek medical advice

**Inhalation:** First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.

#### General Information:

Please call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 11 26 from anywhere in Australia (0800 764 766 in New Zealand) and is always available. PI provide MSDS information when you contact them.

**Notes to physician:** No specific treatment. Treat symptomatically

---

### Section 5 - Fire Fighting Measures

---

**Suitable extinguishing media:** Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

**Special hazards:** No specific hazard

**Specific hazards during firefighting:** Not flammable or combustible. There is no risk of an explosion from this product under normal circumstances if it is involved in a fire.

**Extinguishing Media:** Use any extinguishing agent suitable for the situation/location of the fire.

**Special protective equipment for fire-fighters:** Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus with a full face-piece operated in positive pressure mode.

---

### Section 6 - Accidental Release Measures

---

**Personal precautions:** If product is spilled, clean up immediately. Personnel should wear appropriate protective clothing during clean up. See section 8 for more details.

**Environmental precautions:** Avoid dispersal of spilled material and runoff and contact with soil and waterways. Inform the relevant authorities if the product has caused environmental pollution (waterways or soil). See section 12 for more details.

**Cleaning Methods:** Minor spills: Clean immediately whilst wearing appropriate protective equipment.  
Major spills: Clear area of personnel, contain and clean the same as a minor spill.

---

## Section 7 - Handling and Storage

---

**Advice on safe handling:** Avoid contact with skin and eyes. Wash hands thoroughly after handling. Keep exposure to this product to a minimum. Use appropriate personal protective measures as per MSDS

**Storage:** Keep out of reach of children, container tightly closed. Store in original containers in a cool (below 30°C), dry, well ventilated area and out of direct sunlight. Some liquid preparations settle or separate on standing, shake well before use. Store away from foodstuffs, foodstuff containers and incompatible materials such as oxidising agents and acids. Check packaging for further storage instructions on the label.

---

## Section 8 - Exposure Controls and Personal Protection

---

The following Australian Standards will provide general advice regarding safety clothing and equipment:

**Occupational exposure limits:** Contains no substances with occupational exposure

**Engineering measures:** No special ventilation requirements. Good general ventilation should be enough to control worker exposure to airborne contaminants.

**Personal protective equipment:** Eye protection: None recommended, Safety glasses with side shields suitable if required.

Hand Protection: None recommended, PVC rubber Gloves suitable if required.

Skin: No special protective clothing is required.

Respiratory: No personal respiratory protective equipment normally required.

---

## Section 9 - Physical and Chemical Properties:

---

|                                           |                                           |
|-------------------------------------------|-------------------------------------------|
| <b>Physical Description &amp; colour:</b> | Clear colour viscous liquid.              |
| <b>Odour:</b>                             | Fragrance as per label.                   |
| <b>Boiling Point:</b>                     | Not applicable.                           |
| <b>Freezing/Melting Point:</b>            | Not applicable.                           |
| <b>Vapour Pressure:</b>                   | 2.37 kPa at 20°C (Water vapour pressure). |
| <b>Vapour Density:</b>                    | Not applicable.                           |
| <b>Specific Gravity:</b>                  | 0.99- 1.05 g/mL @ 25°C                    |
| <b>Water Solubility:</b>                  | Soluble in water.                         |
| <b>pH:</b>                                | 7.5 to 8.5 @ 25°C                         |
| <b>Odour Threshold:</b>                   | Not available.                            |
| <b>Evaporation Rate:</b>                  | Not available.                            |
| <b>Viscosity:</b>                         | Not available.                            |

---

## Section 10 - Stability and Reactivity

---

**Chemical stability:** The product is stable under normal ambient conditions of 25°C.

**Conditions to avoid:** Excessive heat and direct sunlight.

**Incompatible materials:** Strong oxidising agents, acids, aluminium, tin, zinc and their alloys.

**Hazardous decomposition products:** Decomposition products may include carbon monoxide, carbon dioxide and sulphur dioxide.

---

## Section 11 - Toxicological Information

---

**Acute toxicity:** Not available

**Skin corrosion/irritation:** Not available

**Eye damage/irritation:** Not available

**Respiratory or skin sensitisation:** Not available

**Reproductive toxicity:** Not available

**Potential Health Effects:**

Eyes: Causes serious eye irritation.

Skin: Health injuries are not known or expected under normal use.

Ingestion: Health injuries are not known or expected under normal use.

Inhalation: Health injuries are not known or expected under normal use.

Chronic Exposure: Health injuries are not known or expected under normal use.

---

## Section 12 - Ecological Information

---

Insufficient data to be sure of status. Expected to not be an environmental hazard.

---

## Section 13 - Disposal Considerations

---

**Disposal:** Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility.

**Disposal considerations:** Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not reuse empty containers. Dispose of in accordance with local, state, and federal regulations.

---

## Section 14 - Transport Information

---

**ADG Code:** This product is not classified as a Dangerous Good. No special transport conditions are necessary unless required by other regulations.

---

## Section 15 - Regulatory Information

---

There are no additional regulations on any substances within this product that are known.

---

## Section 16 - Other Information

---

**This MSDS contains only safety-related information. For other data see product literature.**
